

February 11, 2022

Dear Parishioners,

Through your generous response to the iGiveCatholic Campaign we have recently completed the security upgrades to the Adoration Chapel and currently are awaiting the delivery of equipment to finish the upgrades in the church.

It is our desire that all who come to the Church, or to the Chapel to adore Jesus, feel safe at all times. Thus, with your support we have improved the security of the Chapel through the installation of cameras, inside and outside, a monitor to view the outside entrance, enhanced the entrance gate with a magnetic locking mechanism with combination and key card access and installed a push to exit button.

A security camera system as well as a more sophisticated recording system to allow live streaming of Masses and special events will be installed in the Church by the end of March.

The parish campus Wi-Fi will also be upgraded to support the additional technology.

Thank you again for your overwhelming support of this project to enhance the safety and comfort level of all parishioners.

Sincerely in Christ,

Fr. Otis Young
Pastor
